

## **Confronted by a young college woman. 25 September 2019: Some Thoughts.**

The old tired canard most often hurled at pro-life witnesses (especially men) is **"What about the woman who was raped?"** asserting that pro-lifers obviously do not love women if they do not allow the unborn child to be aborted. Nothing could be further from the truth. Pro-life witnesses love women born and unborn or they would not be present at facilities where abortions are executed. Actually, it is the pro-choice advocates who falsely claim to love their sisters when they champion their unborn sisters' violent destruction in their mother's womb. This leaves their born sisters morally wounded and their unborn sister's dead. Pro-life witnesses have helped countless women who had a change of heart at the last moment, saved their child and continue to be forever grateful for their influence in that lifesaving decision.

Pro-choice advocates are all about celebrating successful abortions, ignoring that fact that 30+ millions of their Unborn American sisters have lost their freedom to be advocates for anything! Ignoring also, that a mothers' rape was not the driving reason for 30+ millions of their sisters in the womb to lose their lives! They're honestly, no help to women before or after abortions!

**We were alive at every moment before our birth,  
a truth they also, conveniently ignore!**

[Eartha Kitt, Jesse Jackson, Ethel Waters, Faith Daniels, Frederick Douglass and Miss Pennsylvania, Valerie Gatto and countless others for instance, would not have shared America with us if their mothers had taken the love-less approach of the pro-choice advocates.](#)

Sadly, Roe v. Wade and its moral destruction of Americas' fundamental founding values, life, liberty and pursuit of happiness, continues unabated with the full **diabolical** weight of legal malfeasance. Destroying the freedom to be born will be the downfall of freedom for us all. It is inevitable. Refusing to protect the most defenseless will destroy our will to defend ourselves.

**Been listening to the pro-choice presidential candidates?**
